The presentation gives insight into the wisdom of the ancient Chinese culture and its relevance in our world today. It also tells about the culture's revival through Shen Yun Performing Arts whose mission is to showcase the values that have shaped Chinese culture throughout 5000 years of civilization – a heritage that has almost disappeared from modern China.

Tegan Davies invites you to join in the celebration of this ancient culture through a presentation which is entertaining, educational, and inspirational. The presentation includes colourful slides along with short videos and music clips from the show.
